HARWOOD'S DIARIES.

These Diaries are arranged on the most approved plans and in the most convenient forms, and may be had of various sizes, from the waist-coat-pocket to the folio for the counting-house. They possess an advantage over all English Diaries, in the information being suited also to Ireland, and may be had printed without the dates, so that they may be commenced at any period of the year.

N. B. The pocket sizes may be had of the *Improved Paper, with a Metallic Pencil.*

HARWOOD'S IMPROVED PATENT MEMORANDUM BOOK, WITH METALLIC PENCIL.

Extract from *The Morning Chronicle.*

"We have been highly pleased with HARWOOD'S IMPROVED PATENT MEMORANDUM BOOK, with METALLIC PENCIL, and glad to hear that a Book which promises to become so useful to the Public may be obtained almost for any purpose. The Paper is of a very close, smooth surface, and purposely adapted to receive a clear and perfect impression from the slightest touch of the Pencil, and when once made is indelible. The Pencil itself is a clever, ingenious, and complete model of what a pencil should be; and in its use retains to the fullest degree that beautiful softness which has rendered the lead of Cumberland so justly celebrated, besides combining the additional advantage of durability."

HARWOOD'S LONDON BANK PENS

These Pens are manufactured from the best tempered steel, combined with the greatest care and skill in the workmanship. They possess the flexibility of the quill, with the preservation of elasticity to a much greater degree; and are so remarkable for producing beauty and clearness in writing as to render them distinguished in numerous public offices, which is the greatest testimony of their excellence.

In order that the purchasers of these Pens may ensure the kind most particularly suited for their own writing, they are made to possess different characters, which are distinguished by the following letters, and each Pen is stamped "Harwood's London Bank Pen."

F for Fine or Running Hand.
M Middling or Round Hand.

EXPLANATION.—Suppose the Three per Cents. are at 78—that is, every 100l. of that Stock cost 78l.; then by looking opposite to 78, in the next column to the right hand, it appears that the Three and a Half per Cents. should be at 91; the Four per Cents. at 104; the Five per Cents. at 130; Bank Stock at 208; and India Stock at 273, to yield the same Annual Interest, which is 3l. 16s. 11d. for every 100l. sterling, invested in any of these Funds when at the above Prices.
